- My Page

This is the online network for DCCOC2010 Interaction Design Studio, which is part of the Design Computing degree at the University of Sussex. The unit is taught by Martin Tamitsch (moderator), Nikash Singh, Willem Rutledge (tutors) and includes guest lectures by professional designers and developers. The main design project is organized in collaboration with Mozilla Labs.

- Mozilla Labs guest lecture

- Jinghua Zhang commented on Benedict Alcantara's blog post 'Phase 2 iterative product design - brainstorming & storyboard'
"sounds great! Looking forward to see your prototype!"
- Martin Tamitsch commented on Eva Hung's blog post 'Assignment 2 - User Testing'
"interesting user comments regarding the reasons used to slow progression. - When they actually meant to be fixed it might be that because you had some common, participants expected that to be the best solution."

amped
THE HACK DAY: RELOADED

SEPTEMBER 15
ATLANTA, GA

OCTOBER 16
DURHAM, NC

[REGISTER NOW!](#)

WHAT

Amped is the hack-day, reloaded! High-energy, diversity, and breaking the hacker stereotype, if geeks are the new rockstars, then Amped is our Lollapalooza. And even better, thanks to our partners, Amped is free!

How does it work?

Regardless of what you do in the web, at Amped you'll be a *champion* to entrepreneurs and geeks on hand to guide and inspire.

Prizes

The Grand Prize is a stack of \$10,000, all expenses paid trip to Europe to attend Web Directions East for the best top development. Plus there's a tonne of amazing prizes from our [sponsors](#) to be won.

Not a moment wasted!

Amped is a *high voltage* 24 hours of non-stop hacking, workshops and more followed by an amazing party, with lunch catering all the way.

Why?

Amped's all about exploring, learning, playing with new technology, new ideas, and creating new design and technology. So please do go for us [and](#) [sponsors](#)!

Facebook profile page for 'amped'. The profile picture shows a group of people. The cover photo shows a person working at a computer. The page has a blue header with the name 'amped' and a 'Like' button. Below the header is a post with a video player and a photo of a person. The right sidebar shows the 'About' section with various details.
